

## abc CARE

# LIVE ANIMALS | abc CARE

- Highest priority for booking and cargo loading as well as quick transit timings. All handling and transport processes are adapted to the specific characteristics of the particular animal
- Assistance with the documentation and IATA Live Animal Regulation requirements
- Cooperation with local authorities to ensure a smooth handling process at origin and destination

## EXPERTISE

- More than 10 years of experience of carrying live animals (e.g. racehorses, dolphins, whales, elite breeding stock, cattle, tigers, bear cubs)
- Full compliance with IATA AVI regulations and other international standards
- Certified and trained personnel across entire ABC network
- ABC will provide full information concerning required export and import permits, transit permits, veterinary health inspection, quarantine, trans-shipment requirements or applicable restrictions
- Special handling facilities at every gateway for a smooth handling with authorized access for qualified staff only
- Possibility to rent special ULDs, e.g. horse stalls, kennels

## OUR AIRCRAFT

- Our aircraft have a state of the art environmental control system that allows to reduce the humidity, control the pressure and set four independently controlled temperatures in the cargo compartments commodities to maintain the comfort, safety and well-being of the animal
- Each cargo compartment can be temperature controlled, with temperature settings between +4°C and +29°C

## GENERAL

- Possibility of cargo attendants accompanying the live animals on-board of the aircraft to ensure the health of the animals during the entire flight
- We offer freight and product for all time sensitive shipments to guarantee priority space on our flights
- Full transparency at each stage of transportation coordinated by our dedicated Customer Service Team (24/7) and supported by an online Track & Trace system at [www.airbridgecargo.com](http://www.airbridgecargo.com)
