Volga-Dnepr Group fleet consists of 17 Boeing-747F, 3 Boeing-737F, 12 An-124-100, 5 Il-76TD-90VD

WORLD LEADER

in the oversize and heavy cargo market

RANKED 10TH

among major airfreight carriers of the world in terms of its FTK performed

RANKED 1ST

among Russian airlines both in terms of cargo carried and cargo turnover

Work is the human activity of bringing value to society by way of its continuous cognition, aimed to prevent threats to humanity (country, organization, human being), threats to the present and the future.

Honesty is a fulfillment of obligations to oneself and others, expressed in one's intentions to perform the obligations as well as an evaluation of such performance.

- Creating **VALUE** for the Customers (representing the society) in the form of products/services of the Company being expressed in the Employee's personal workmanship (without delegation to anyone);
- Organized **COOPERATION** in accordance with regulations of division, specialization and cooperation of work which are used in the Company and also contracts between the Company and Customers, the Company and Suppliers;
- Receiving Customers' **RECOGNITION** for the value from the Company's services/products in generally accepted legal forms: money and other derivatives, barter; gratitude and other immaterial forms of recognition;
- Continuous cognition needed for the creating value for the Customer through the training, maintenance and transfer of **KNOWLEDGE**, scientific and inventive activity;
- Continuous development of the Employee's working abilities (intellectual, emotional, communicational, physical and energetic) through the constant **PERFECTION** (rationalization) of working processes and value created by them;
- Drawing out and preventing threats to existence and **DEVELOPMENT** of the Customers, Employees, Company and Suppliers;
- **HEALTH** maintenance as a base of working ability in balanced, rational, scientifically based use of time for work, training, rest and family.

DYNAMICS OF TONNAGE

DYNAMICS OF FTK

AirBridgeCargo Airlines is one of the fastest developing air cargo carriers in the world with consistently improving quality for our customers.

SVO HUB FACILITIES

- 3 warehouses in SVO
- 20 000 sq m – total area of warehouses in SVO
- first automated cargo handling system in Russia with three-dimensional cargo handling on several levels
- 24/7 video surveillance
- 137 cameras
- 99,98 Safety index
- TAPA certified

- Refrigerators for perishable cargo
- 380 cub m area for temperature controlled cargo
- Temperature control from -30C to +10C
- Dedicated pharmacy warehouse
- Dedicated area for dangerous goods

CARGO ENHANCED SECURITY

- High-tech goods and ULD are inspected for any damage by visual inspection or with the use of special tools
- In case of detection of any damage, an ABC representative is informed immediately
- The entire process of loading and unloading is under video surveillance

- In case of tail-to-tail operations at least two aviation security officers are present at the time of unloading, transporting and loading on another board
- Two security officers are permanently on duty to protect cargo, cargo storage and bandwidth access mode at the warehouse

Moscow Hub Development (from 4th quarter 2017)

Total area:	42,300 sq. m
Pil:	3,482 cub. m
DGR:	6,412 cub. m
VAL:	435 cub. m
Handling capacity:	380,000 tons per year*
Scheduled Operational Start-up:	3rd quarter 2017

* The modular design of the complex allows to increase its capacity up to one million tons of cargo per year

THE FIRST AUTOMATED CARGO HANDLING SYSTEM IN RUSSIA

- To make full use of the available space and to ensure the cost and time efficiency of the cargo fleet the Complex will perform three-dimensional cargo handling on several levels.
- The modular design of the integrative components enables further improvements planning as well as rapid and efficient response to changing market conditions.
- Online controlled (through the web app) special storage zones to meet the critical requirements of temperature-sensitive medicines and perishable goods
- Security restricted area with biometric access control
- Sizeable four-storey Pallet Container Handling System (PCHS) with a storage area for 576 Unit Load Devices (ULD), 60 of which are dedicated positions for temperature-sensitive ULDs

ABC in 2016

- Fleet development: one new B747-8F
- Route network development including via co-operations with partner airlines (new online stations: Seattle, Houston, Abu Dhabi, Phnom Penh, Oslo, London)
- Maintenance of high level quality of services
- IATA CEIV certification received
- Further development of heavy and outsize cargo services
- Close communication with customers on all levels including corporate
- Further development of sales infrastructure
- E-booking solutions via corporate website

ABC in 2017

- Continued growth through our Boeing partnership: Fleet development: +2 Boeing-747F - total fleet 18 a/c
- ABC growth rates exceeding market growth rates
- ABC network development:
 - Asia-US - increase of transpacific operations
 - APAC: Taipei, Saigon
 - Middle East: Abu-Dhabi, Dubai
- Development of sales infrastructure:
 - Consolidated Group sales and management structure
 - New structure for development of verticals
 - Increase of GSAs in offline countries
- Continuation of cost optimization programme to increase our competitiveness
- Transformation into a premium products carrier: focus on high-yield cargo
 - Pharma - organisation alignment, pharma product introduction
 - Off-size - new HQ and regional sales structure to improve responsiveness
 - Dangerous goods
- Maintenance of high-quality services
- Close communication with customers on all levels including corporate
