

26.05.2020 | Volga-Dnepr Group has completed four charters in the transportation of urgent medical beds from China to Russia

The Volga-Dnepr Group (comprised of Volga-Dnepr Airlines, AirBridgeCargo Airlines and Atran), has completed four charters on behalf of international logistics operator and customs agent VR Logistic in the transportation of urgent medical beds from China to Russia.

A total of 500 tons were delivered from Beijing to Moscow to equip some of the region's largest hospitals as they combat the spread of COVID-19. Four chartered B747F aircraft were operated by AirBridgeCargo Airlines as part of a series to Moscow airports. All flights were flown in compliance with both international and internal regulations to counter further spread of the virus.
