**abc XL** specialized logistics solutions for oversize and heavy cargo

## We are market leaders when it comes to XL cargo.

Safe, reliable, innovative. These aren't just buzzwords to us. From aviation aircraft engines to drilling offshore equipment, satellite systems and beyond – we understand that certain cargo shipments require special attention and handling. At AirBridgeCargo, we have more than 28 years of Volga-Dnepr group experience in transporting heavy and oversize cargo. No matter how complex the shipment, ABC offers customized logistics solutions tailored to the needs of each customer. Always. Worldwide.

### Your benefits at one glance:

- On-site technical manufacturer's inspection and consultation
- Highly customizable logistics solutions (from design and manufacture to packaging and delivery)
- Nose door loading capabilities
- Certified, highly skilled staff across the entire network
- Door-to-door solutions
- 3D modeling for load planning of complex shipments
- Possibility of cargo attendants on board and at shipper's site
- Special operating procedures for the transportation of aviation engines
- Full compliance with IATA, ICAO, Boeing guidelines and internal safety policies
- Enhanced security measures and 24/7 surveillance of shipments
- Customer service support, online track&trace option for all shipments

## Logistics solutions that give an extra peace of mind.

Our abc XL product was developed to safely transport cargo that according to its dimensions, weight and property cannot be loaded onto an aircraft on a standard pallet position. In these cases, qualified logistics solutions are needed to ensure the shipment arrives at its destination in perfect condition.

Our team at AirBridgeCargo is made up of expert loadmasters with decades of experience in creating tailor-made shipping solutions for heavy and oversize shipments. We combine tried and true principles with the latest ideas for efficient, reliable deliveries – in close cooperation with our customers. It is our goal to give our customers an extra peace of mind when choosing AirBridgeCargo, no matter how unique the shipment.

### We offer specialized solutions for various industries:

#### Oil & gas industry specialized solutions:

- Carriage of pipes, generators, pumps and other extra large and heavy drilling offshore equipment
- Dedicated charter services or re-routing in case of rig down situations

#### Aerospace industry specialized solutions:

- Commercial aviation aircraft engines in compliance with manufacturer handling guidelines
- Vast experience in the transportation of satellite systems
- Transportation of small aircraft, fuselages, stabilizers, ailerons, etc.
- Express delivery of AOG spare parts

#### Motor vehicle industry specialized solutions:

- Both palletized and RO/RO (roll on, roll off) solutions
- Standard operating procedures for all types of cars including prototype cars, racing cars and hybrid vehicles.
- Transportation of hybrid vehicles (with lithium batteries) and race cars

## You like reaching new heights.

AirBridgeCargo operates one of the youngest freighter fleets in the air cargo industry, consisting of 18 state-of-the-art Boeing aircraft. The eleventh latest-generation Boeing 747-8F was delivered in September, 2017.

Our fleet with nose door cargo loading capabilities can transport cargoes with a length of up to 44 meters, or with a width of up to 3.8 meters, and we can also transport shipments with a height of up to 3.15 meters or a weight of up to 62,000 kg. Anything beyond, we ship with Volga Dnepr's IL-76 and AN-124.

### Thanks to our modern fleet, we can offer the following benefits:

- Nose door loading for quick and efficient handling
- Access to main deck cargo capacity across AirBridgeCargo's entire network
- The most modern widebody aircraft in the air cargo industry
- GoGreen strategy – low levels of CO<sub>2</sub> emissions

AirBridgeCargo's hub at Moscow's Sheremetyevo airport features brand new equipment in each warehouse, allowing for a seamless handling of cargo shipments. Our unique hub network model and flight connectivity in Moscow lets our customers access connections within a 48-hour delivery time – including handling.

## Always delivered as promised.

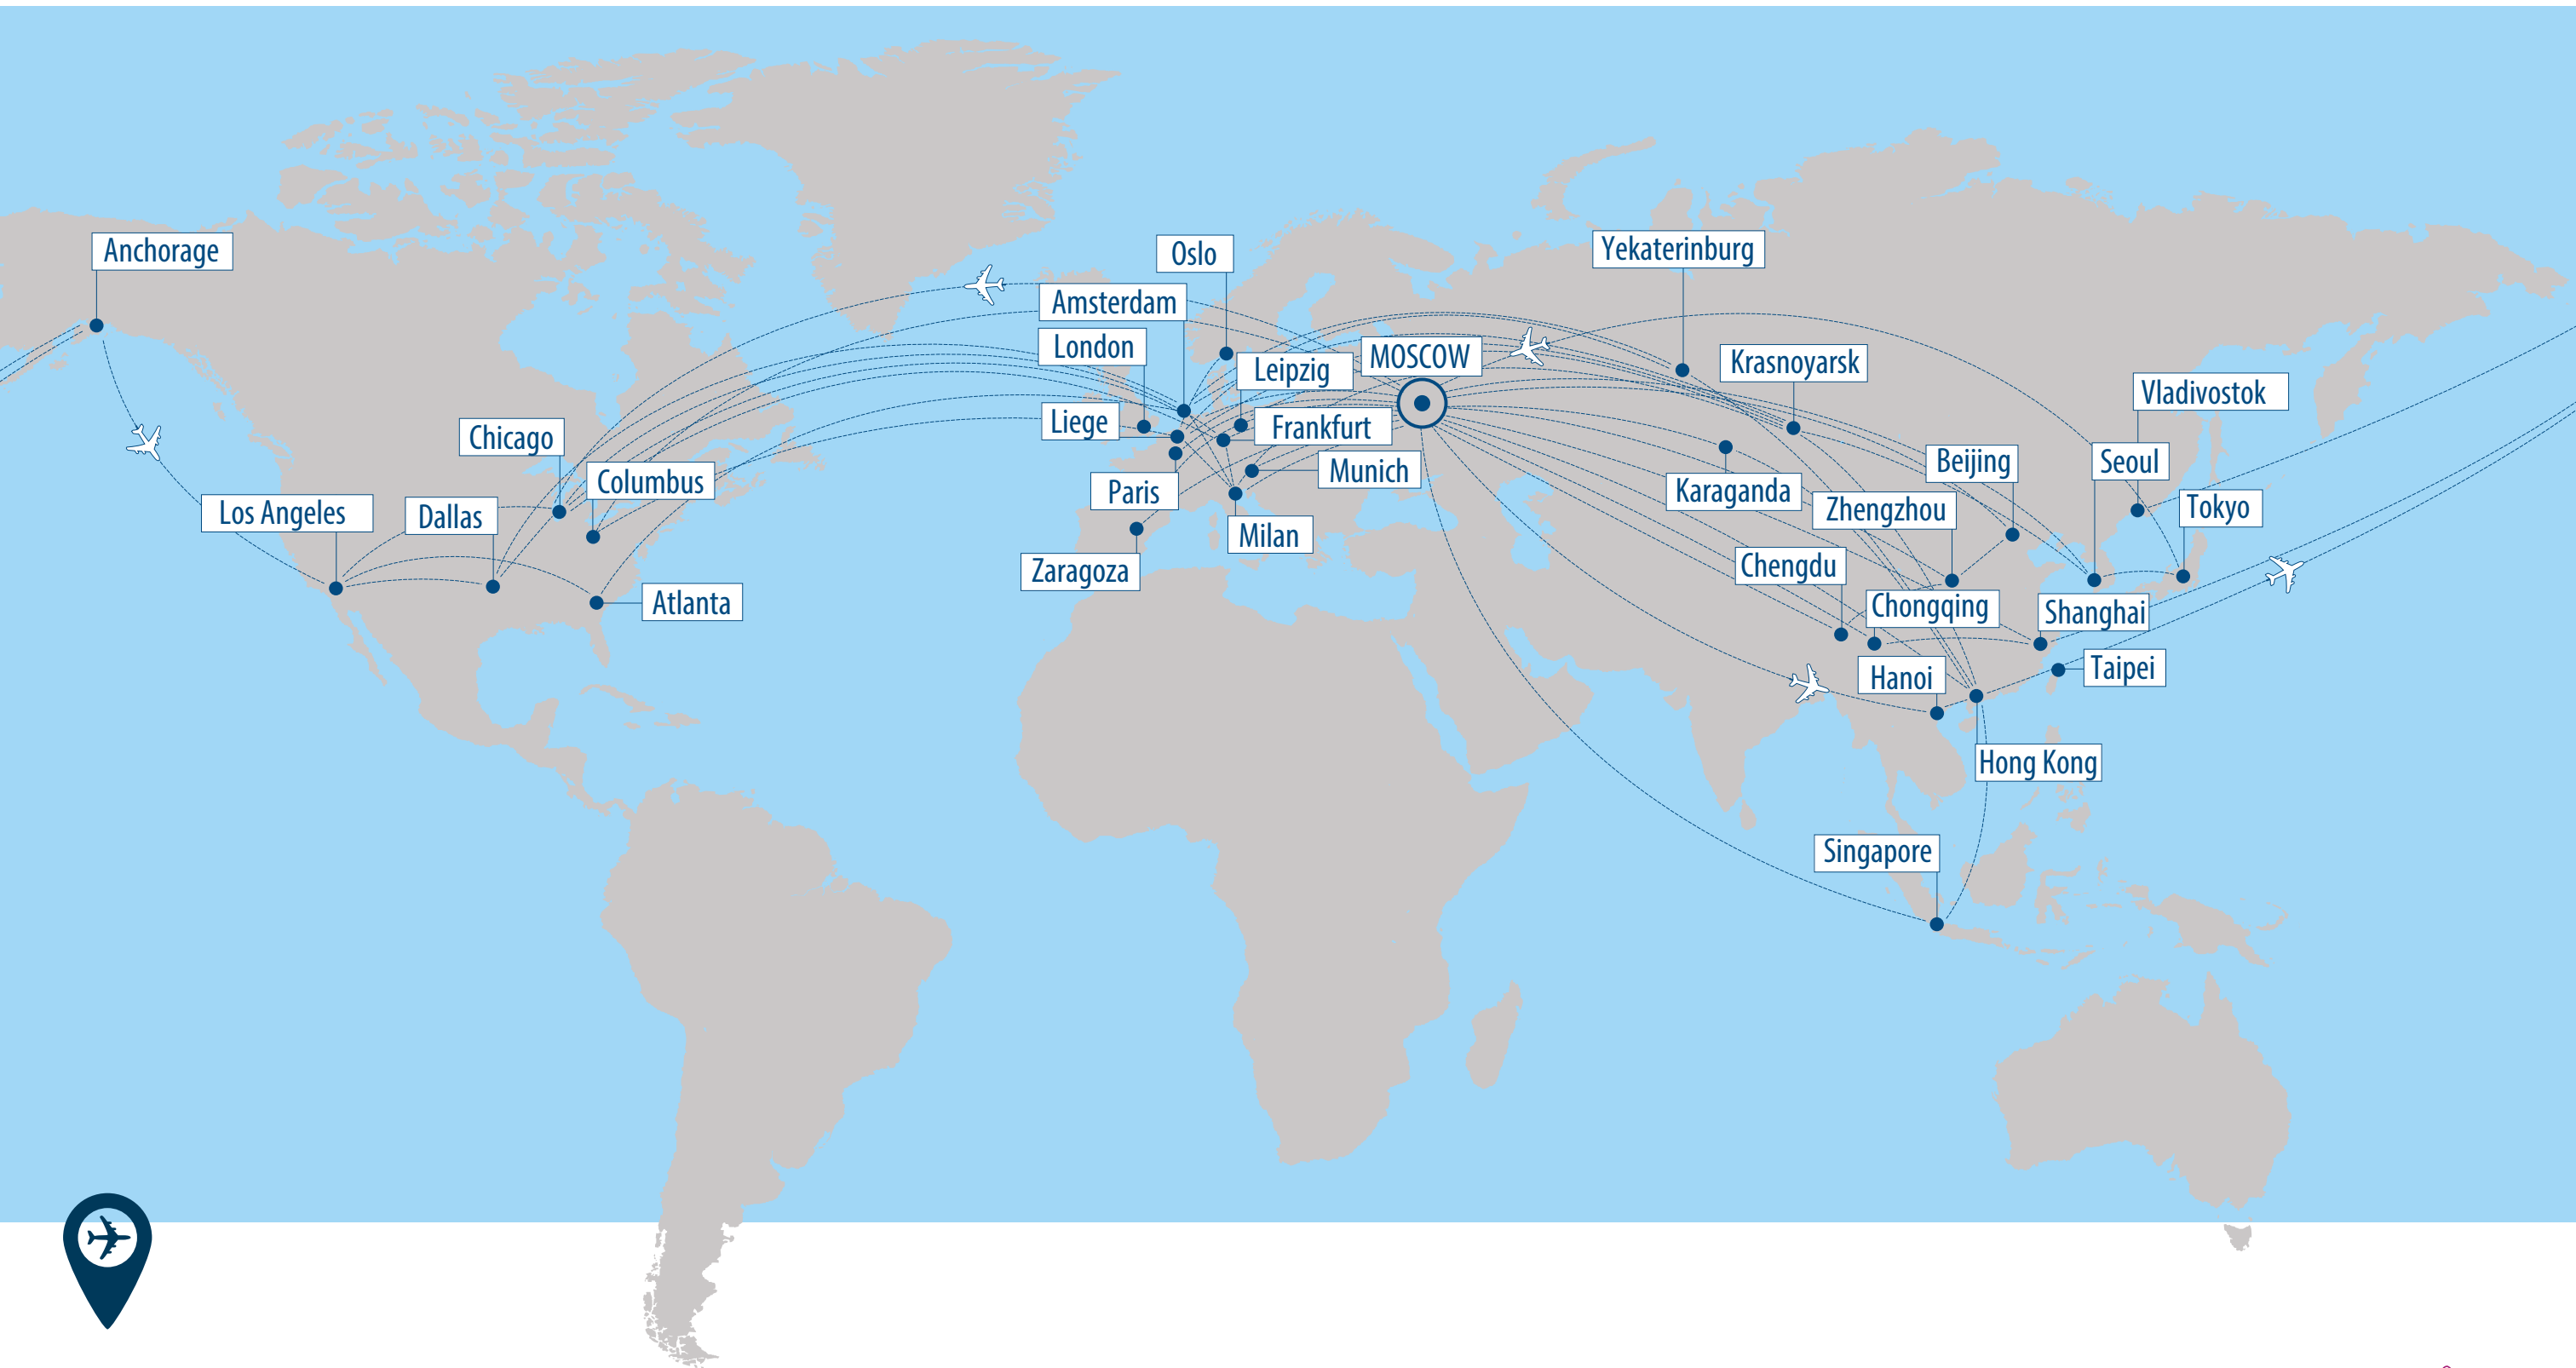

### Our Moscow hub offers the following benefits:

- 20,000m<sup>2</sup> of total warehouse space and 3 GHA warehouses
- Enhanced security measures with 24/7 surveillance
- Customs cleared cargo ready for pick-up within 4 hours
- First automated cargo handling system in Russia with 3D cargo handling on several levels
- 99,98% safety index
- TAPA certified

You like knowing the possibilities are endless.

**11** in Europe and the Middle East **5** in Russia and CIS **11** in Asia **6** in the USA

LOGISTICS YOU CAN COUNT ON.

## You like knowing you're on the route to success.

AirBridgeCargo Airlines (ABC) was launched in 2004 as a part of Volga-Dnepr Group to perform international scheduled cargo services.

- More than 13 years of consecutive growth
- Over 30 airfreight destinations with effective connectivity options through hub in Moscow and 48 hour delivery time
- 1,300 cargo professionals worldwide
- Customized logistics solutions for transportation of general and special cargo
- State-of-the-art Boeing 747 fleet
- Logistics solutions, complemented by extensive network of ABC interline partners and trucking companies worldwide
- IATA and IOSA certified, full compliance with all international/internal safety guidelines and quality standards (Cargo IQ)
- Member of Cool Chain Association
- IATA CEIV (pharma) and QEP certified
- Qualified and certified team of logistics practitioners for transportation of general and special cargoes
- 24/7/365 Control Tower (CT) operation to monitor and manage transportation special cargo consignments

## Special attention for special cargo.

### CONTROL TOWER

AirBridgeCargo Airlines has established a new 24/7/365 Control Tower (CT) operation to monitor consignments of special cargoes and to proactively respond to service disruptions to ensure it consistently meets customers' delivery deadlines. Managed by a team of fully trained supply chain specialists and based in Moscow, HQ the Control Tower provides:

- real-time, round-the-clock monitoring of all cargo movements throughout the entire transportation process across ABC's network
- checkup of ABC's fleet technical condition (temperature control system, cargo handling system readiness)
- schedule alignment and control for priority delivery of special cargo
- communication with ABC specialists from different departments and customers in case of deviations for prompt response
- cargo status updates and reports
- CT personnel availability 24/7 via e-mail, skype or direct phone line
